About Us.

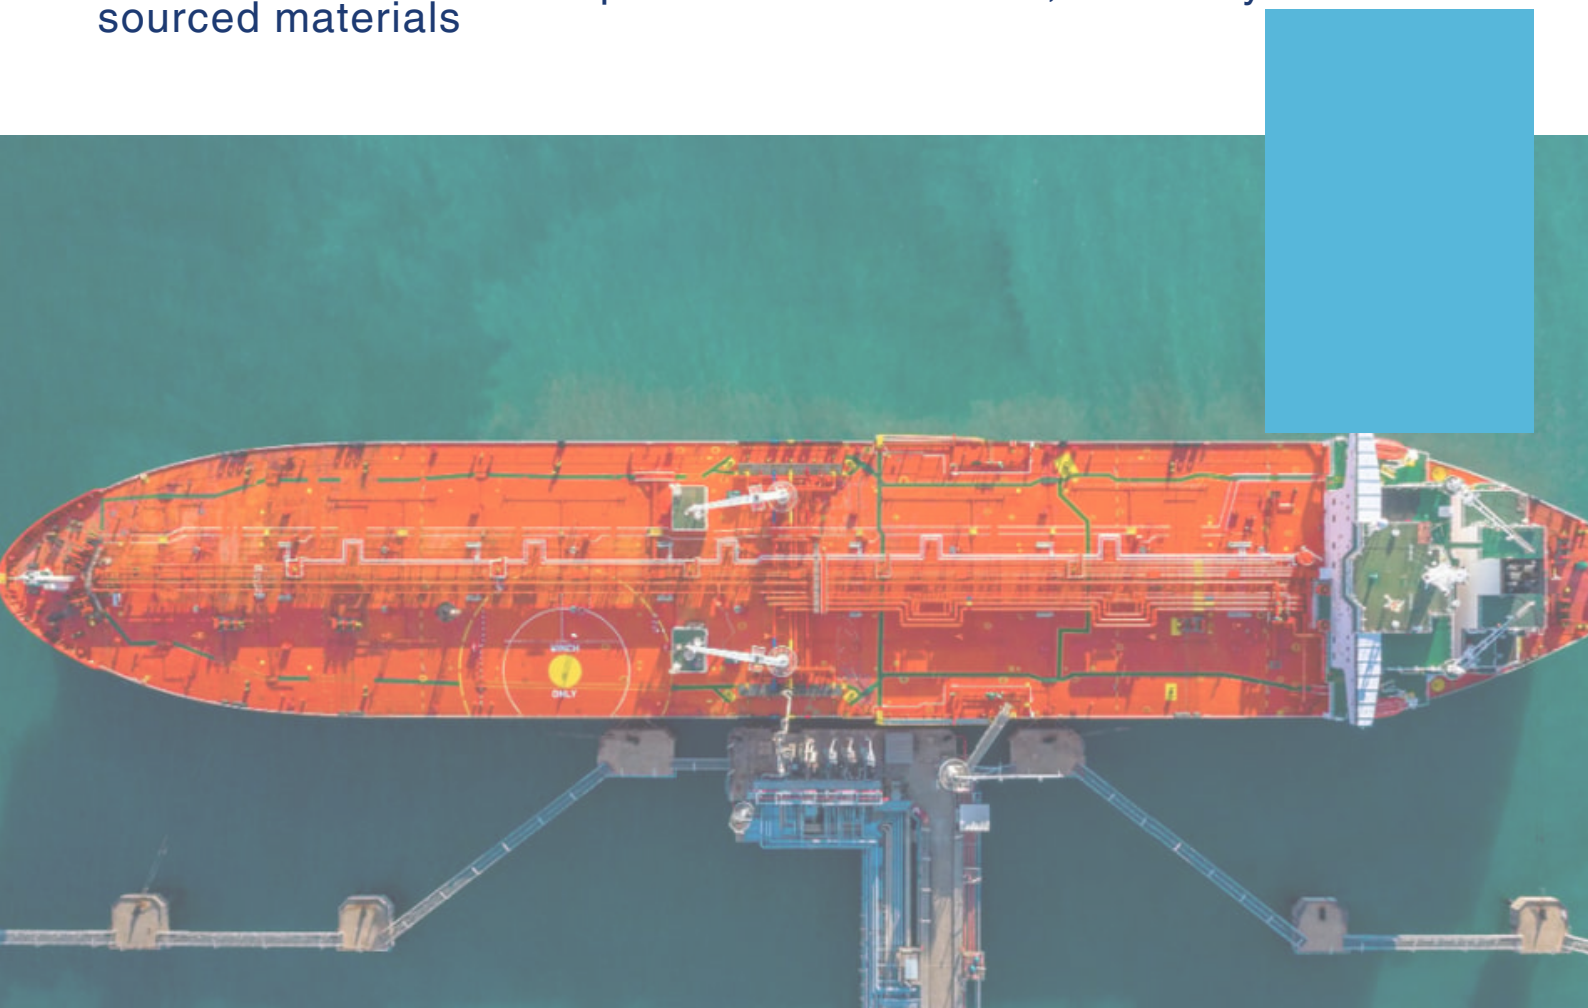

Introduction

Clearday Trading is a dynamic pan-African commodity trading house headquartered in Cape Town, South Africa. The company specializes in the origination, trading, logistics, and structured supply of critical energy commodities, minerals, and natural resources across the African continent and into international markets.

Operating with a focus on reliability, market insight, and responsible sourcing, Clearday Trading bridges African producers with global demand, supporting energy security, industrial growth, and resource development throughout the region.

CORE BUSINESS

- Clearday Trading focuses on high-impact sectors in Africa's resource economy:
- Oil and Gas Crude oil, refined products (diesel, petrol, jet fuel), LNG, natural gas liquids & derivatives Spot trading, term contracts, blending, supply chain optimization for producers, refiners & end-users
- Energy Commodities Thermal coal, anthracite, metallurgical coal, biofuels feedstocks Emerging clean energy transition products (sustainable supply chains only)
- Minerals and Metals Manganese, chrome, iron ore, copper, cobalt, vanadium, PGMs Other critical minerals for batteries, steelmaking & industry
- Natural Resources Bulk industrial minerals & energy-related feedstocks Emphasis on traceable, ethically sourced materials

Mission & Vision.

MISSION

- To bridge global demand with Africa's resource wealth by delivering reliable, efficient, and responsibly sourced commodities, while optimizing supply chains, creating value for producers and consumers, and contributing to sustainable economic development across the continent.
- Clearday Trading concentrates on high-impact sectors central to Africa's resource economy. We specialize in physical trading, risk management, logistics coordination, and structured supply solutions that support upstream producers, midstream operators, refiners, industrial end-users, and international markets.

VISION

To become Africa's leading commodity trading house - a trusted global partner that unlocks the continent's resource potential, drives responsible energy transition and industrialization, and creates inclusive prosperity by 2035.

Our Philosophy.

Clearday Trading embeds responsible practices across its value chain:

- Compliance with international standards for conflict-free minerals, anti-corruption, and environmental stewardship.
- Support for local communities through supplier development, skills training, and infrastructure contributions in sourcing regions.
- Promotion of energy transition-aligned commodities where feasible, including lower-carbon alternatives and traceability for critical minerals.
- Transparent reporting and ESG integration to build long-term trust with stakeholders.

Operations and Reach

- **Offices:** Cape Town & Johannesburg South Africa.
Clearday is in the heart of Africa's premier financial, logistics, commodities port and hub with excellent connectivity to ports (e.g., Durban, Richards Bay, Maputo) and regional markets.
- **Pan-African footprint:** Active sourcing and trading networks in major resource jurisdictions including Angola, Ghana, Mozambique, Tanzania, Zambia, Democratic Republic of Congo, Namibia and Botswana.
- **Global linkages:** Strong buyer relationships in Asia (China, India), Europe, the Middle East, and emerging markets, enabling efficient export flows and intra-African trade.
- **Logistics expertise:** Partnerships with rail, road, barge, and port operators for seamless movement of bulk commodities from remote mining/oil fields to end markets, including dedicated storage and blending facilities.

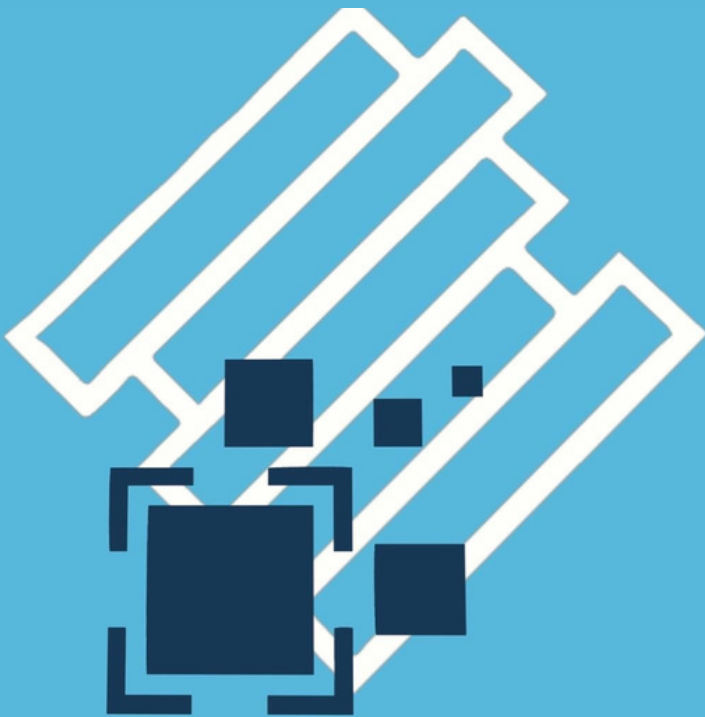

LEADERSHIP AND VALUES

Led by experienced professionals in energy trading, mining finance, geopolitics, and African logistics, the executive team brings decades of market knowledge and regional expertise. The name “Clearday” symbolizes the company’s core promise: transparent, predictable, and forward-looking operations in often complex and volatile commodity environments — delivering clarity and confidence to producers, buyers, and partners alike.

Clearday Trading (Pty) Ltd is positioned as a key enabler of Africa’s natural resource potential, driving efficient resource flows, supporting industrialization, enhancing energy access, and contributing to sustainable economic development across the continent.
